*** The information contained therein is representational as of the date indicated. The Marina provides a Channel Survey to incoming boats as a courtesy to assist with navigation. However, the Marina cannot be held responsible for any changes in Channel depth that may have occurred since the survey was taken. Responsibility for safe navigation resides solely with the Captain of the vessel. It is the Captain's responsibility to ensure that they have the most up-to-date information and to exercise caution when navigating through the channel.
